## THE BIG EXCURSION.

It Will Be a Swell Affair and Under the Auspices of the Elks.

Traveling Passenger Agent E. M. Duncan of the Choctaw route (the Rock Island system) informs us that the excursion from Ardmore to South McAlester over this new line on Thanksgiving Day promises to be a grand affair.

The Elks of South McAlester have extended an invitation to the Ardmore Elks to visit their new Elk home, which is the finest in the West, on this occasion, and the members are making arrangements for a very nice entertainment for the visitors and their families.

All necessary arrangements to handle the business with comfort to the excursionists have been made.

A grand ball is contemplated at night, and should it be the desire of the Ardmore Elks to take a part in the ball the train will be held at South McAlester to suit their convenience, a courtesy not often extended by a railroad.

Another feature of the excursion of the Elks is that the train will be run by an Elk crew throughout.

The train will consist of ten coaches, the last four being reserved for the Elks and their families.

Every detail has been arranged and a grand time and trip is in store for Ardmore people on Thanksgiving Day.

## A HANDSOME BUILDING.

An Elegant Two-Story Brick Structure—Largest in the City.

At the corner of West Main and C street, southwest, Joe F. Robinson is building, and has nearly completed, one of the largest two-story buildings in the city of Ardmore.

The first floor has two doors, one large double store and one regular size store. The building is 72 feet (in the clear) by 100 feet deep.

The upper story is what the people have been guessing on so much. It is one vast hall so far, 72x100 and 20 feet to the ceiling. It would suit for an up-to-date opera house, but Mr. Robinson can't say yet what he will convert it into.

Standing on the corner of the sidewalk at this store one can see north up C street to the top of the hill by Hargrove, east to the railroad, south to the C. O. & G. roundhouse, and west nearly to Lone Grove.

Miss Mina Crim is reported sick at her home in South Ardmore.

## Incorporated Companies.

In the front of our directory we intend to give all incorporated, or otherwise important Ardmore enterprises, a descriptive write-up.

You can be a help to us and your concern by seeing that your company has its place. It will not cost you a cent.

All we ask is for you to write a brief description of your company, when incorporated, names of directors and amount incorporated for.

If it is not a stock company and is in or contingent to Ardmore and we have not called on you we would be glad to have you hand in to this office a description of it and the names of its officers.

Emanuel Lowenstein is in receipt of a telegram from South McAlester requesting him to furnish music for the Elks' Thanksgiving ball in that city next Thursday night.

Mannie, as director of the Ardmore orchestra, has accepted and will take with him an orchestra of six pieces.

Considering that there are other good towns and good musicians as convenient to South McAlester as Ardmore, and that the director of the Ardmore orchestra is a very young man, not having reached his majority by a number of years, the compliment is a very great one and is appreciated both by the members of the orchestra and the town. Ardmore is proud of the distinction of having the best orchestra in the country.

## Died From Accident.

Jeff Millington, who was accidentally shot by his friend O. G. Braden while out duck hunting near this city on the 13th, died today at about 11:30 o'clock at the home of his sister, Mrs. G. H. Nichols, in South Ardmore.

The home of deceased was a few miles southeast of the city. He leaves a wife and three children. The funeral will occur tomorrow afternoon. The hour has not yet been decided upon.

## HEAVY RAIN IN ARDMORE.

The Santa Fe Depot Grounds inundated—Three inches Rain.

For the twenty-four hours ending at 7 o'clock this morning the rainfall in Ardmore was 2.65 inches. Nearly or quite an inch more has fallen since then, making about three inches.

Everything in the town seemed to be flooded at daylight this morning. The Santa Fe depot and express office seemed to be on an island, in fact were at the time, for a lake of water surrounded both.

Our depot facilities at present are and have been for some time in a most deplorable condition. It does seem that something should be done about the matter. If the Santa Fe people will not try to fix up their platform above high watermark they should be made to do it.

Water in other parts of the city flowed freely in din some instances in contrary directions to that which our street commissioner intended it.

It was stated by residents on the northside of the A. & C. embankment in Northwest Ardmore that water had banked up over there until some of the people had to move. This should not be.

No countrymen are in town today, and business is almost at a standstill.

Dressmaking and everything in sewing done in up-to-date style.
